

## Lead Cost Specialist

[Apply Now](#)

Company: McDermott International

Location: Bulisa

Category: business-and-financial-operations

### Job Overview:

Lead Cost Specialist will lead and be responsible for all cost control and reporting tasks on the project at the worksite. This position will report to the Project Controls Manager and will be key to providing accurate and reliable cost forecasts and projections to the Project Management Team.

Successful candidates must have 10 or more years of relevant experience and recognized expertise in large international onshore/offshore oil and gas projects with at least 5 years of supervisory experience. The working environment is multicultural and demands considerable experience in the project process working with International Clients and Contractors. Strong communication skills, fluent spoken and written English.
