Company: Q-Sourcing Servtec

Location: Uganda

Category: other-general

About This Job: Q-Sourcing Limited trading as Q-Sourcing Servtec is a manpower management solutions firm operating in the East African Region in the countries of Uganda, Kenya, Tanzania, Rwanda, and South Sudan. On behalf of International SOS our national-based client, a pioneer in international health and security risk management, we are looking for a competent, skilled, and experienced Project Medical Head to work in Uganda. Reports Functionally to: Regional Medical Director Reports Administratively to: Medical Services: Project Manager Works Closely with: Internal and external stakeholders such as Medical Services Support Personnel, Project Manager, Client and/or appointed personnel. Direct Reports: Consortium partner's medical and non-medical staff mobilized on the project, International SOS project Paramedics Areas of Responsibilities: Project Medical facilities, Field Paramedics, Relationship with client's medical team COMPANY OVERVIEW International SOS (www.internationalsos.com) is the world's leading medical & security services company operating from over 700 sites in 92 countries with 10,000 employees, led by 1,100 physicians and 200 security specialists. Our global services include medical and risk planning, preventative programs, in-country expertise and emergency response for travelers, expatriates and their dependents of over 70 percent of the Fortune 500 companies. A. OVERALL PURPOSE OF THE JOB (BRIEF DESCRIPTION OF THE PRIMARY PURPOSE OF THIS POSITION) To represent the Consortium between International SOS and City Medical/City Ambulance by undertaking a range of tasks and responsibilities using efficient and sound judgment and conducting all aspects of work tasks in a consistent, objective and professional manner. To effectively maintain the highest level of client service standards

through support of the clinic staff and by providing efficient and consistent delivery of non-medical support services to clients. The Employee shall at all times carry out his/her duties within the tenets of the Hippocratic Oath, consistent with ethical and best medical practice. To mentor and train two physicians identified by International SOS' consortium partner. To play a pivotal role in the project healthcare organizations, especially when it comes to maintaining relationships with key stakeholders: Liaison Between Medical Staff and Administrators: The PMH acts as a bridge, facilitating effective communication between the medical staff and administrative teams. They ensure alignment of goals, smooth collaboration, and efficient decision-making working closely with the Project Operations Manager. Specifically, the PMH engages with the client medical CMO, fostering a strong working relationship. They discuss strategic initiatives, address concerns, and jointly develop plans to enhance patient care. Balancing the Medical Facility's Budget: Financial stewardship is a critical aspect of the PMH's role. They oversee budgetary matters related to clinical operations. The PMH collaborates with the client medical CMO to allocate resources effectively. Together, they optimize financial allocations while maintaining high-quality patient care. Ensuring Optimal Patient Care: The PMH champions patient-centric care. They monitor clinical outcomes, patient satisfaction, and safety protocols. By collaborating closely with the client medical CMO, the PMH ensures that patients receive the highest standard of medical care. They jointly explore innovative approaches to enhance patient experiences. Developing and Maintaining Relationships: Building strong relationships is a core competency for the PMH. They engage with local healthcare providers, community partners, and other stakeholders. In your project, the PMH actively collaborates with the client medical CMO. They share insights, exchange best practices, and collectively drive improvements in patient outcomes. Clinical Oversight and Mentorship: The PMH provides clinical supervision and mentorship to staff. They guide physicians, nurses, and other healthcare professionals. Working closely with the client medical CMO, the PMH ensures that clinical practices align with evidence-based guidelines and promote patient well-being.

SUMMARY OF ROLE: The role of the Project Medical Head involves management with the responsibility to ensure the provision of the highest level of clinical care and client services to patients using our medical services. The person will be expected to perform as a family physician and senior medical officer in the management of medical and trauma emergencies and to provide support. The person will drive the medical governance on the different locations of the project. The person will also take on the crucial task of mentoring

and training two physicians for future PMH role. B.
